Tech Tool (multiple choices allowed)	Facebook LINE Skype YouTube Canvas <input type="checkbox"/> Other (Zoom, Google Drive, Email)		
Collaboration (outline)	<p>The Nanzan students joined groups with the students in Arizona to discuss and research environmental issues such as sustainability and how they impact the economy. They had multiple Zoom meetings and email interactions outside of class over the quarter. The Nanzan students finished with a research report based on their chosen topic and gave a mini-presentation to their classmates during the final class.</p> <p>Students discussed their research topics in both English and Japanese.</p>		
duration	Multiple meetings and emails over the whole of quarter 3		
How to evaluate students' achievement	Final reports based on students' COIL research project and mini-presentations in class.		
Comment	<p>This project was quite interesting, but also challenging for some students. Most students took it seriously and contributed to their groups, however some students did not participate as much as I would have liked them to due to scheduling conflicts and other reasons. Overall, it was a success and I believe students benefitted greatly from it. Nakamura-Deacon sensei was a huge help in organizing everything and had many wonderful ideas for the project.</p>
